

stiaavelli irio

Since 1946, Florence, Tuscany, Italy

Established in 1946, our family company has always worked “Italian style” with passion and creativity, providing our customers with **high grade products and solutions**.

Day to day we promote the quality of **“Made in Italy”** fans and blowers and an outstanding service for motors and drives distribution all over the world.

Moreover, the excellent location of our headquarters, warehouse and production facilities enables us to guarantee **fast lead and delivery times** wherever you are.

Stiavelli is for You

We focus on customer satisfaction by offering an **outstanding service**. Our fast just-in-time production process management and a full off-the-shelf product range ensures a responsive carrying out of virtually every request.

We guarantee the **quality of the final product** thanks to advanced technology, reliable partners, and the best raw materials with a continuous improvement of the value of our work.

Our products comply with the **latest standards and certifications** for specific regulations are available on demand. Our working procedures are certified in compliance with UNI EN ISO 9001:2008 by DNV.

Move Your Application Forwards with Our Answers

The evolution of the markets we operate in requires a continuous updating of our product line, using our **technical know-how** to satisfy customers needs when choosing the best product for their application.

Thanks to our long-time experience, we have developed advanced solutions which can suit **various industrial sectors**.

Chemical, mining, textile, cement, and steel or food industry are just an example of the limitless applications you can **improve with us**.

Energy Efficiency for Industrial Fans

We grew up with the idea of safeguarding the environment. Therefore, our research and development projects are **focused on eco-friendly** solutions.

Just think about the first applications of our fans on industrial plants for the filtering and processing of substances before the emission into the atmosphere.

Our fans and blowers are **compliant with the European Directive 2009/125/EC** for the setting of Ecodesign Requirements for Energy Related Products. We carefully assess efficiency curves, electrical absorption and product life cycle, before making our proposal.

International Company

We invest in branding and our name is a safe **guarantee for our customers**. International fairs are an excellent opportunity for us to meet them and open up to worldwide market.

Moreover, our Sales Department replies every day to requests from all over the world. Global customers can have a **direct relationship with us**.

Our team **takes care of your needs** and follows up every inquiry, providing an immediate feedback. By mail, web chat or phone we grant an outstanding service immediately, worldwide.
