with reliable and high-grade products and solutions, offering an outstanding service through a responsive customer relationship

A Family Company, Since 1946

Our company has always provided our customers with reliable and **high-grade products and solutions**, offering an outstanding service through a responsive customer relationship, working proudly with passion and creativity.

Since 1946 we have promoted **the quality of “Made in Italy”** for our products all over the world, and since the ‘60s paved the way for industrial ventilation in Italy, a sector in which the company became a benchmark.

We maximize the value of our products through advanced technology, experience, and quality of our work so we realize **custom Industrial Fans and Blowers**.

We are also committed **to work in a responsible and sustainable way**, by evaluating new solutions through which we can contribute to global efforts to preserve the **environment**, making the world a better place for the future generations.

Industrial Centrifugal Fans and Blowers

Our multi-purpose centrifugal fans are **reliable** and can be manufactured to work properly in case of hot air, gas or dusty fluids at different pressure levels.

We can provide **customized solutions for virtually any kind of application**, and equip the fans with special accessories.

Most of our fans may be supplied in explosion-proof configuration in compliance with **ATEX Directive** for classified areas. Our fans are compliant with **environmentally-friendly ecodesign principles** to provide sustainable solutions.

Mill and Cereals
Conveying Centrifugal Fan

HVAC Air Handling
Industrial Fan for Dedusting Plant

Ceramic Industry
Industrial Fan for High Temperature

Chemical Industry
Oxidation-Proof Process Fan

Ducted Axial Fans

Our axial fans are designed with **accurate technical analysis** to guarantee **great performances** and reduced noise levels, ensuring reliability and resistance in harsh environments and **strenuous applications**.

A wide range of impeller configurations to meet the requirements of every industrial application, paying particular attention to **performance and energy efficiency**.

The fan unit can be upgraded with **special accessories**, such as flanges, silencers, transmissions and sensors. Belt drive and explosion-proof configurations are available.

Marine and Ship
Swing-out Marine Fan

Chemical Industry
Bifurcated Case Axial Fan

Chemical Industry
Fan for Corrosive Fluid Extraction

HVAC Air Handling
Wind Tunnel Fan
